

Storage hooks for hose

Maintenance-free and low-noise

Integrated pressure regulator

10L tank

SILENT COMPRESSOR

0,75kW 230V 10L TANK 76dB

product code:

CP150S

The new line of silent compressors from ZionAir have a low noise level and a high efficiency of air.

The forced air cooling ensures a central flow of cool air, which increases the life and efficiency of the compressor.

Thanks to the direct drive and oil-free operation, the silent compressors produce hundreds of hours of clean air without the need for maintenance.

The silent compressors are also equipped with a free start-up mode up to 1.2 bar, which prevents a high start-up peak.

- ✓ Compact and Mobile
- ✓ Maintenance-free
- ✓ Low noise level, High efficiency
- ✓ Integrated pressure regulator
- ✓ Forced air cooling

Specifications

power	0,75kW
voltage	230V
max. tank pressure	11 bar
preset cut-off pressure	8 bar
start-up pressure	6 bar
suction volume	195L/min
air output	150L/min
tank volume	10L
speed	1420rpm
duty cycle	40%
noise level	76dB (@ 1m)
